SUMMARY

Front-End Developer with a B.Sc. in Computer Science (GPA 3.3), skilled in React.js, JavaScript, HTML, CSS, Bootstrap, Tailwind CSS, and Sass. Built 4+ full-stack projects, including an AI E-Commerce app with a 3+ step AI shopping workflow across 30+ products and a Form Builder with 15+ draggable field types. Experienced with 40+ API endpoints, 5+ AI models, TypeScript, Next.js, Node.js, Express, MongoDB, and NestJS, focused on scalable, high-performance web solutions.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, Node.js, MongoDB

Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Bootstrap, Tailwind CSS, Sass, Express.js, NestJS

Tools & Platforms: Git, GitHub, VS Code, Postman, npm, Docker

Other Skills: Responsive Web Design, REST API Integration, AJAX, Axios, Fetch API, Performance Optimization, Cross-Browser Compatibility, Agile Development

PROJECTS

Advanced Form Builder — React Web Application 2026

- Built a dynamic drag-and-drop form builder using React, enabling users to create, customize, and manage forms through an intuitive visual interface.
- Implemented reusable form components, dynamic field configuration, responsive UI, and real-time form structure updates for a flexible form-building experience.

FreshCart — AI-Powered E-Commerce App 2026

- Built a modern React-based e-commerce frontend featuring authentication, product discovery, cart, checkout, and responsive UI.
- Developed an AI Shopping Agent that understands natural-language product requests, searches the catalog, recommends relevant products, and automatically adds selected items to the cart through a tool-based workflow.

Full-Stack Projects — ITI (Open Source Application Development Track) 2025 – 2026

- Worked on full-stack applications using Node.js, Express, MongoDB, and React.js.
- Built modular APIs with authentication and role-based access.
- Developed reusable React components integrated with REST services.
- Implemented database schemas and CRUD operations with Mongoose.
- Collaborated in agile teams and applied CI/CD, Docker basics, and Git/GitHub workflows.

Freelance Front-End Projects 2023 – Present

- Delivered responsive React.js and Bootstrap web applications for clients, integrating REST APIs and optimizing page performance.

EXPERIENCE

Front-End & Full-Stack Projects (Self-Learning & Academy Work)

- Built responsive web applications using HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind, Node.js, Express, and MongoDB, with focus on API integration, CRUD operations, authentication, and performance optimization.

LEADERSHIP

Team Leader 10/2024 – 07/2025

- Managed a team of 7 members, assigning tasks, setting deadlines, and ensuring smooth collaboration through regular meetings.
- Oversaw both front-end and back-end integration, coordinated with team members to resolve technical challenges, and ensured the project was delivered on time with high-quality standards.

EDUCATION

9-Month Scholarship, Track: Open Source Application Development
Information Technology Institute (ITI)

Bachelor of Computer Science — GPA: 3.3
Faculty of Computers and Artificial Intelligence, Benha University

ACTIVITIES

Competed in a problem-solving competition 01/2026
Information Technology Institute (ITI)

Participated in a robotics competition 10/2022
ST Smart

LANGUAGES

Arabic, English
